**Smart India Hackathon Special Mention** MAR 2019

**MLH / Local Hack Day Best Hack of the Day** DEC 2019

Proposed AOM Model at **Google Summer of Code** APR 2017

## PROJECTS

### **YoutubeNLP** — [youtubenlp.com \(https://github.com/YouTubeNLP/Backend\)](https://github.com/YouTubeNLP/Backend)

Operated as a backend lead for youtubenlp.com (Youtube Analytics Dashboard to assess Micro and Macro trends). Developed a production level server in asynchronous python architecture in flask using univorn, gunicorn, docker and deployed to IBM cloud.

### **LoudChat** — [loudchat.app](https://loudchat.app)

A Vote and Debate Platform Web Application built with HTML5, CSS3(Materialize), Firebase, PHP & MySQL during my internship at Zoodify.

### **SME Survey Form** — [sme-survey-form.web.app](https://sme-survey-form.web.app)

Progressive Survey Form built on React, Node, Express(Server), Axios (Request), Firebase Functions & Google APIs like Authentication and Spreadsheet for my university Faculty Research, to collect user data.

### **Kumbhakarna** — [ca4-certificate.herokuapp.com/downloads](https://ca4-certificate.herokuapp.com/downloads)

Extract data from Google Sheets using App Script, generate PDF Certificates using Photoshop and Extendscript, send Certificates via Gmail Client and Drive API, host certificates online on heroku in a Postgres DB using Clojure server.

### **Digital Clock** — [pandevim.github.io/digital-clock](https://pandevim.github.io/digital-clock)

A digital clock made with HTML5, CSS3 and ES6 JS.

### **Vipra** — [behance.net/gallery/vipra-case-study](https://behance.net/gallery/vipra-case-study)

Research and design for a Pandit booking android application.

## VOLUNTEERING

### **Team Digantara, Student Satellite Space Initiative** — *Systems and Operations Engineer*

SEP 2017 - PRESENT

My field of work involves testing and scheduling research under Onboard Computing Dept., developing Real Time OS, etc.

### **CYPHER, Honor Society for Competitive Programming Discipline** — *Problem Setter, Analyst and Tester*

NOV 2017 - PRESENT

Conducting monthly programming competitions on online judges like CodeChef, annual coding contest fraternity Code Apocalypse and Raid.

## ADDITIONAL EXPERIENCES
